CHAPTER 11

DELPHI AUTOMOTIVE SYSTEMS LLC,

Case No. 05-44640-rdd

Jointly Administered

Debtors.

-----X

**PROOF OF CLAIM OF THE UNITED STATES ON BEHALF OF
THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY**

1. The United States files this Proof of Claim at the request of the U.S.

Environmental Protection Agency ("EPA"), against debtor Delphi Automotive Systems LLC ("Delphi"), for response costs incurred and to be incurred by the United States under the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 U.S.C. §§ 9601-9675 at the Superfund Sites set forth herein in Paragraphs 2 through 7, infra. In addition, with respect to equitable remedies that are not within the Bankruptcy Code's definition of "claim," 11 U.S.C. § 101(5), this proof of claim is only filed in protective fashion. See, e.g., Paragraphs 3, 8, 9, and 10, infra.

2. Tremont City Landfill Superfund Site. Delphi is liable to the United States under CERCLA with respect to the Tremont City Landfill Superfund Site located at 3108 Snyder-

Domer Road, Tremont City, German Township, Clark County, Ohio (the "Tremont City Site"). The 80-acre Site includes several facilities including a closed 8.5 acre chemical waste landfill (the "Barrel Fill" facility), a closed 56 acre sanitary landfill (the "Landfill" facility), and a 15.5 acre closed oil recycling and hazardous waste storage and transfer operation (the "Waste Storage" facility). Delphi is liable to the United States because by contract, agreement or otherwise, it arranged for disposal or treatment, or arranged with a transporter for transport for disposal or treatment, of hazardous substances owned or possessed by Delphi at the Barrel Fill and Landfill facilities owned by another party or entity, and containing hazardous substances, pursuant to Section 107(a)(3) of CERCLA, 42 U.S.C. § 9607(a)(3). Delphi disposed of drums and bulk wastes containing, inter alia, paint sludge, polyester resins, polystyrene, sulfuric acid sludge, paint waste, polyol resin and caustic sludge at the Barrel Fill facility and solid wastes at the Landfill facility. The closed Barrel Fill and Landfill operations are facilities within the meaning of CERCLA. There have been releases or threats of releases of hazardous substances, including but not limited to, inorganic compounds (antimony, arsenic, thallium, cyanide and lead) and volatile organic compounds (xylene, methylene chloride, ethyl benzene and acetone), from the facilities at the Tremont City Site. These hazardous substances have been released into the waterways, surface water, soils, and sediments at the Tremont City Site. Other potentially responsible parties may, along with Delphi, also be jointly and severally liable to the United States under CERCLA with respect to the Barrel Fill and Landfill facilities.

3. This Proof of Claim is filed in a protective manner with respect to Delphi's obligations to perform work with respect to the Tremont City Site. See Paragraph 8, infra. On October 3, 2002, EPA entered into an Administrative Order on Consent ("AOC")(Docket # V-

W-03-C-719) with Delphi that required Delphi, and six other respondents, inter alia, to conduct a Remedial Investigation/Feasibility Study ("RI/FS") at the Tremont City Site. Delphi and the remaining AOC respondents have completed the RI field work. EPA estimates that it may cost the jointly and severally liable parties, including Delphi, approximately \$1 million to complete the required work under the AOC, some of which has already been performed. EPA has not yet selected remedial action under CERCLA for the Barrel Fill and Landfill facilities at the Tremont City Site and Delphi has therefore not yet been ordered to perform remedial work, but may be ordered by a court or other authority found to have jurisdiction to do so in the future. Since investigations at the Barrel Fill and Landfill facilities at the Tremont City Site are continuing and remedial action has not yet been selected, the cost of Remedial Design/Remedial Action ("RD/RA") to Delphi is uncertain at this time, but the work with respect to these facilities could cost the jointly and severally liable parties, including Delphi, as much as a total of \$22.2 million or more, in addition to the \$1 million described above. EPA estimates that RD/RA work relating to the Barrel Fill facility could cost the jointly and severally liable parties, including Delphi, approximately \$7 million. EPA estimates that RI/FS work and RD/RA work relating to the Landfill facility could cost the jointly and severally liable parties, including Delphi, approximately \$14.5 million.

4. Response costs have been and will be incurred by EPA with respect to the Tremont City Site not inconsistent with the National Contingency Plan promulgated pursuant to Section 105 of CERCLA, 42 U.S.C. § 9605, and set forth at 40 C.F.R. Part 300, as amended. Under the AOC, Delphi is also liable to make payments for future oversight costs to EPA, which EPA estimates to be \$100,000. In addition, the United States has incurred unreimbursed

response costs to date of approximately \$820,000 with respect to the Barrel Fill and Landfill facilities at the Tremont City Site for previous work, including inter alia, a Preliminary Assessment/Site Investigation ("PA/SI"). Delphi is jointly and severally liable to the United States for the above amounts. Delphi is also jointly and severally liable for interest due under 42 U.S.C. § 9607(a). Other potentially responsible parties may along with Delphi also be jointly and severally liable to the United States for all of the above amounts plus interest due under 42 U.S.C. § 9607(a).

5. South Dayton Dump & Landfill Superfund Site. Delphi is liable to the United States under CERCLA with respect to the South Dayton Dump and Landfill Superfund Site ("South Dayton Site") located at 1975 Dryden Road, Moraine, Ohio. Delphi is liable to the United States because by contract, agreement or otherwise, it arranged for disposal or treatment, or arranged with a transporter for transport for disposal or treatment, of hazardous substances owned or possessed by Delphi at the South Dayton Site owned by another party or entity, and containing hazardous substances, pursuant to Section 107(a)(3) of CERCLA, 42 U.S.C. § 9607(a)(3). Delphi arranged for the disposed of hazardous wastes, including but not limited to asbestos, flyash, metallic dust, oil and grease sludge and paint wastes at the South Dayton Site from several Delphi facilities in the Dayton and Kettering, Ohio area. The South Dayton Site is a facility within the meaning of CERCLA. The South Dayton Site was proposed for inclusion on the National Priorities List ("NPL"), pursuant to CERCLA Section 105, 42 U.S.C. § 9605, on September 23, 2004 (see 69 Fed. Reg. 56970). There have been releases or threats of releases of hazardous substances, including but not limited to, inorganic compounds (arsenic, cadmium, chromium, mercury and lead) and volatile and semi-volatile organic compounds (1,2-

dichloroethene, tetrachloroethene, toluene, polychlorinated biphenyls ("PCBs")), at the South Dayton Site. These hazardous substances have been released into the soil and groundwater at the South Dayton Site. Other potentially responsible parties may, along with Delphi, also be jointly and severally liable to the United States under CERCLA with respect to the South Dayton Site.

6. Response costs have been and will be incurred by EPA with respect to the South Dayton Site not inconsistent with the National Contingency Plan promulgated pursuant to Section 105 of CERCLA, 42 U.S.C. § 9605, and set forth at 40 C.F.R. Part 300, as amended. The United States has incurred unreimbursed response costs to date of approximately \$404,349 with respect to the South Dayton Site. Delphi is liable to the United States for this amount. Delphi is also liable for interest due under 42 U.S.C. § 9607(a). Other potentially responsible parties may along with Delphi also be jointly and severally liable to the United States for all of the above amounts plus interest due under 42 U.S.C. § 9607(a).

7. EPA expects to incur future response costs in connection with the remedial design and remedial action for the South Dayton Site. These costs have been estimated by EPA at between \$20 and 50 million. Along with other identified PRPs, Delphi is jointly and severally liable to the United States for these amounts.

8. Protective Filing For Work Obligations. The United States is not required to file a proof of claim with respect to Delphi's injunctive obligations to comply with work requirements arising under Orders of Courts, Administrative Orders, and other environmental regulatory requirements imposed by law that are not claims under 11 U.S.C. § 101(5). Delphi and any reorganized debtor(s) must comply with such mandatory injunctive and regulatory and compliance requirements. The United States reserves the right to take future actions to enforce

any such obligations of Delphi. While the United States believes that its position will be upheld by the Court, the United States has filed only in protective fashion with respect to such obligations and requirements as indicated herein to protect against the possibility that Delphi will contend that it does not need to comply with any such obligations and requirements and the Court finds that it is not required to do so. Therefore, a protective contingent claim is filed in the alternative for such obligations and requirements but only in the event that the Court finds that such obligations and requirements are dischargeable claims under 11 U.S.C. § 101(5) rather than obligations and requirements that reorganized Delphi must comply with. Nothing in this Proof of Claim constitutes a waiver of any rights of the United States or an election of remedies with respect to such rights and obligations.

9. RCRA Compliance and Work Obligations. This Proof of Claim is filed in a protective manner with respect to Delphi's compliance and work obligations under the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. §§ 6901 - 6992k. See Paragraph 8, supra. RCRA establishes a comprehensive regulatory program for generators of hazardous waste and for owners and operators of facilities that treat, store, or dispose of hazardous waste. Delphi is the owner and operator of RCRA-regulated facilities including, but not limited to, Vandalia, Ohio (Vandalia Facility), as well as other locations. Pursuant to its authority under RCRA, EPA has promulgated regulations applicable to such generators and such owners and operators of hazardous waste management facilities. The federal RCRA implementing regulations are set forth at 40 C.F.R. Part 260 et seq. Pursuant to Section 3006 of RCRA, 42 U.S.C. § 6926, EPA has authorized various States to administer various aspects of the hazardous waste management program in such States. Pursuant to Section 3008(a) of RCRA, 42 U.S.C. § 6928(a), these

authorized State hazardous waste management program are enforceable by EPA. Under RCRA, Delphi is required, inter alia, to operate in compliance with RCRA regulatory requirements, implement closure and post-closure work and corrective action work, and perform any necessary action with respect to any imminent and substantial endangerment to health or the environment, see, e.g., 42 U.S.C. §§ 6924, 6928, 6973, as required by RCRA and/or RCRA permits or Administrative Orders. For example, in or about January 2002, EPA and Delphi entered into a RCRA Administrative Order on Consent with regard to the Vandalia, Ohio Facility, which requires, inter alia, the continuing implementation of a Corrective Measures Plan at that Facility. Delphi is liable for injunctive and compliance obligations that it is required to perform under RCRA, RCRA permits, and all work requirements under RCRA permits and administrative orders. It is the position of the United States that a proof of claim is not required to be filed for injunctive, compliance, and regulatory obligations and requirements under RCRA. See Paragraph 8, supra. Other liable parties may along with Delphi also be jointly and severally liable to the United States under RCRA.

10. Property of the Estate. Delphi also has or may in the future have environmental liabilities for properties that are part of its bankruptcy estate and/or for the migration of hazardous substances from property of its bankruptcy estate. For example, Delphi has voluntary corrective action agreements for ongoing investigations pursuant to schedules approved by EPA for certain facilities set forth in Paragraph 9, supra. In accordance with 28 U.S.C. § 959, Delphi is required to comply with non-bankruptcy law, including all applicable environmental laws, in managing and operating its property. Upon confirmation of any Plan of Reorganization, reorganized Delphi will be liable as owner or operator of property in accordance with applicable

environmental law. The United States is not required to file a proof of claim relating to property of the estate other than for response costs incurred prior to the petition date. The United States reserves the right to file an application for administrative expense or take other appropriate action in the future with respect to property of the estate. This Proof of Claim is filed only protectively with respect to property of the estate.

11. This Proof of Claim reflects certain known liabilities of Delphi to the United States. The United States reserves the right to amend this claim to assert subsequently discovered liabilities. This Proof of Claim is without prejudice to any right under 11 U.S.C. § 553 to set off, against this claim, debts owed (if any) to the debtor by this or any other federal agency.

12. The United States has not perfected any security interest on its claims against Delphi.

13. This claim is filed as a general unsecured claim except to the extent of any secured/trust interest in insurance proceeds received by Delphi on account of environmental liability to the United States, disputed past cost amounts held in escrow by Delphi pending dispute resolution, and to the extent administrative expense priority exists relating to property of the estate, post-petition violations of law, or otherwise. In addition, the United States will file any application for administrative expense priority at the appropriate time. The United States' position with respect to injunctive, compliance, regulatory, and work obligations that are not claims under 11 U.S.C. § 101(5) is set forth in Paragraph 8, supra.

14. Except as stated in this Proof of Claim, no judgments against Delphi have been rendered on this Proof of Claim.

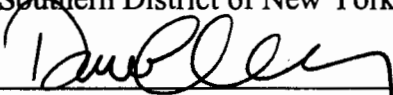

15. This Proof of Claim is also filed to the extent necessary to protect the United States' rights relating to any insurance proceeds received by Delphi relating to sites discussed herein and any funds being held in escrow by Delphi relating to the sites discussed herein.

Dated: New York, New York
